

## **REQUEST FOR CONTINUED EXAMINATION**

### **RESPONSE TO EXAMINER'S FINAL OFFICE ACTION**

Inventor Nick Nassiri (hereinafter referred to as the "Applicant") is in receipt of the Examiner's Final Action dated October 13, 2005 with respect to the above referenced patent application. Applicant hereby Requests a Continued Examination of the pending application.

Applicant wishes to address each of the Examiner's objections as put forth in the Office Action.

Examiner states that Applicant's response/arguments are not persuasive because:

- (i) With respect to Sykes, Applicant's response failed to consider the disclosure in Sykes as the basis of the claim rejections in the instant application; and
- (ii) With respect to Gabber, Applicant's rejected claims do not recite the features upon which Applicant relies to distinguish the instant application from that of Gabber.

Applicant addresses Examiner's concerns in turn.
